THE CELEBRATED DWARF BRAND RAZORS

Known The World Over
The Acme of Perfection

LONG years of experience and the careful training of first class expert workmen have enabled us to offer razors which in Quality and Finish are unrivalled.

☞ All our razors are made of the best quality English Crucible Steel, **twice handforged** to prevent overheating. They are most carefully, chemically hardened and tempered in running water by our special secret process ensuring the best possible results.

☞ Every razor is guaranteed ground by hand by our own staff of expert grinders after the old approved system. The blades thus remain perfectly cool and retain the original quality of the steel, which is an impossible achievement in machine ground razors.

☞ Every razor is conscientiously tested, set ready for use before offered for sale, and fully warranted.

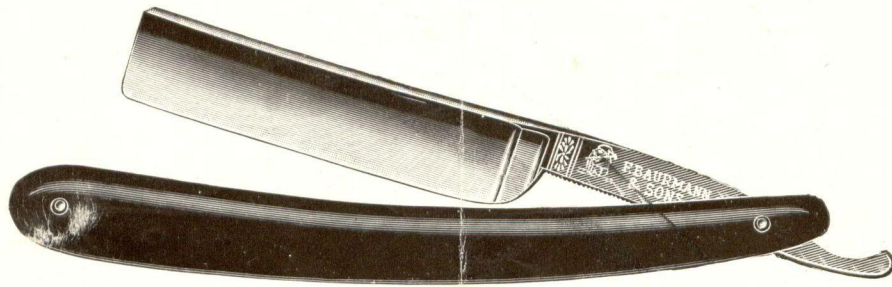

☞ Unequaled for private as well as for barbers use.
